

Линия производства пеллет 4 т/ч в хорошем состоянии

Основные данные

- год 2010
- местонахождение северная Италия
- производство Италия

Состав:

измельчители, сушильный барабан, теплогенераторы, прелетный пресс ZEPI 315 Квт, 825 мм, упаковочное оборудование

Цена с НДС под ключ: 1.400.000 EUR

Цена включает НДС, таможенную очистку, демонтаж на месте нахождения, доставку, таможенную очистку, монтаж и запуск у заказчика.

PELLET PRODUCTION PLANT

HOUR PRODUCTION : 4,5 Ton. YEAR OF BUILT : 2010

Description:

1 - SILO for load dry materials,

with extractor spring.

Power installed kW 5,5

Brand:: VENTILVENETA

Year of built: 2010

2 - STAR VALVE and screw for dosing and feed hammer mills with discharge hopper complete of magnets. Power installed: kW 4,4

Brand: M&P trading

Year of built: 2010

3 - 2 x HAMMER MILLS

with motor of 90 kW each,

complete with high speed dust extraction,

cyclones decanters and star valves,

with the possibility to work single

Power installed: 220 kW

Brand: M&P trading

Year of built : 2010

4 - SPIRAL MIXER for fine materials from 5 cubic meters, with the support system.

Power installed kW 15

Brand: M&P trading

Year of built: 2010

5 - PELLET MILL brand ZEPI,

motor 315 kw, dies 825 mm.

Complete with rollers cooling system,

Automatic greasing system, hopper with

magnet, dosing and mixing,

electric panel operating and control,

controlled by PLC,

Total power installed kW 322

Year of built: 2010

6 - COOLING BELT complete with fan,

Power installed KW 39,2

Brand: M&P trading

Year of built: 2010

7 - Pellet Storage system complete with

2 of bucket elevators

flow rate m³ / h 19, silos, dosing valve power installed kw 5

Brand: TRE EMME

Year of built: 2010

8 - VIBRATING SIEVE for pellet dedusting,

Power installed kw. 0,36

Brand: ZEPI

Year of built: 2010

9 - LEAF FILLING MACHINE fully automatic,

brand MONDIALPACK,

capacity of up to 600 bags / hour

complete with hopper feeder,

weighing system,

takeaway belt bags,

Power installed kW 5

Year of built 2011

10 - PELLETIZER layered

complete with accessories,

Installed power kW 25

Brand: TECNOIMPIANTI Engineering

complete of wrapper and accessories

Year of construction 2010

11 - SUCTION SYSTEM complete of bag filter,

automatic recirculation of dust with discharge into the mixer,

detection unit sparks and auto power off,

installed power kw 50

Brand VENETA COMPONENTS

Year of construction 2010

12 - POWER PANEL AND CONTROL system

PLC controlled,

complete with all cables in the machinery

described above,

complete of trays and anything else necessary.

Brand ISTRA

Year built: 2010

13 - COMPRESSED AIR SYSTEM OF PRODUCTION AND AIR DISTRIUBUCTION

in all plants, installed capacity 33 kW

complete of dryer and tank,

Brand: VENETA COMPRESSORI

Year built: 2010

DRYER PLANT DESCRIPTION

1 - HOT AIR GENERATOR brand TECFLAM

Power 2,000,000 kcal

powered wet biomass

to a max. 50% of H2O,

a bathtub load chips and screw feeder,

pilot burner and oil chamber

mixing of the fumes.

Installed electric power kW 18

Year of construction 2011

2 - HOT AIR GENERATOR brand TECFLAM

Power 1.5 million kcal

powered wet biomass to

to a max. 50% of H2O,

complete of power supply system and

connecting pipes fumes.

Installed electric power kW 15

Year of construction 2010 (to install).

3 - Dosing hopper load slat MC 20 with the reel of dosage, complete with magnet iron separator, supports etc..

Installed power 7.7 kW

Brand: M & P TRADING

Year built: 2010

4 - GRADER DISC, complete with tape

removal of oversized,

hopper and screws feed dryer,

Installed power kw 20

Brand: Trasmec

Year built: 2010

5 - DRYER DRUM 3 steps,mod. ROTAR 250 external drum size 2500 x 9300 mm

Capacity up to 3000 liters H2O dehydration / hour. complete of rollers, cyclones decanters chips for max. 25x25x5 mm and sawdust, away augers, bucket elevator for unloading share of dehydrated materials, bag filter with automatic dust removal, electric, smoke evacuation, fireplace, spark detection system and sprinklers water, electric,

all controlled by PLC, installed power KW 80

Brand: TECNOAIR

Year of manufacture: 2010
